Surface Mount Machine Operator II – 1st Shift

Intelligent Manufacturing Solutions, LLC

Leaders in PCBA Rapid Prototype and On-Demand Manufacturing
Manchester, NH 03103

Apply: <https://www.imscorp-us.com/careers/>

INTELLIGENT MANUFACTURING SOLUTIONS seeks a SMT Machine Operator for the 1st shift to join our Team.

Company Background

Intelligent Manufacturing Solutions (“IMS”) is a leading provider of electronics manufacturing services with a unique specialization in quick-turn assembly of prototype, high-mix printed circuit boards, and build-to-order assemblies for customers primarily located in the Northeastern United States. IMS services a wide range of industries and assists customers with new product prototyping (with one, three, and five-day service available) and production assembly, inspection, and testing.

IMS has developed a customer base through its own sales team, targeting companies with new product development, prototyping, or variable-volume needs that value (and have demonstrated a willingness to pay a premium for) flexible manufacturing expertise, superior quality, strong design/ development capabilities, and rapid turnaround. IMS’ existing customers include some of the nation’s leading producers of medical, military/ aerospace, industrial, electronics, and robotics products. IMS has developed an operating expertise that positions it as a “problem solver” for its customers’ expanding product lines, and the ideal customer is often the one that other contract manufacturers turn away due to the size, complexity, and/ or short timeline of their projects. IMS’ quick-turn capabilities have been refined over years of operation and, combined with its strong product quality, represents a competitive advantage over other aspiring providers.

Position Summary

The SMT Operator II is an experienced operator with some latitude to make decisions related to completing jobs. In this position you are proficient in the operation of the SMT equipment and knowledgeable about the process. You are able to independently complete most jobs by relying on the production and quality process documentation.

- Sets up and operates the SMT line equipment in accordance with established procedures and guidelines
- Writes packages as necessary
- Reads and interprets Visual Aids and diagrams to ensure products are built properly
- Adjusts the machine settings to complete tasks accurately and according to specifications
- Utilizes quality practices and procedures to assure that the assemblies are correctly manufactured

- Inspects components to ensure that the machines placed the correct value part in the appropriate location
- Maintains a clean, neat and orderly area
- Responsible for the quality and accuracy of own work

Knowledge and Skills

- Trained on IPC-A-610.
- Proficient at writing packages.
- Has a demonstrated working knowledge of concepts, practices, and procedures employed to build printed circuit board assemblies (PCBAs).
- Demonstrated experience operating the SMT line and completing jobs accurately with quality.
- Relies on instructions and pre-established guidelines to perform the functions of the job.
- You are capable of exercising independent judgment. Creativity and good judgement are required.
-

Education and Experience

- High School diploma, GED, or equivalent work experience
- 2-5 years of experience using SMT equipment to build printed circuit board assemblies, preferred
- Prior experience with Mycronic/MyData products, preferred

Benefits

- Health Insurance
- Dental Insurance
- Life Insurance
- Long Term Disability Insurance
- 401k
- 8 Paid Holidays
