Electronics/Mechanical Assembler – 1st or 2nd Shift

Intelligent Manufacturing Solutions, LLC

Leaders in PCBA Rapid Prototype and On-Demand Manufacturing
Manchester, NH 03103

Apply: <https://www.imscorp-us.com/careers/>

INTELLIGENT MANUFACTURING SOLUTIONS seeks an Electronics/Mechanical Assembler for the 1st or 2nd shift to join our Team.

Company Background

Intelligent Manufacturing Solutions (“IMS”) is a leading provider of electronics manufacturing services with a unique specialization in quick-turn assembly of prototype, high-mix printed circuit boards, and build-to-order assemblies for customers primarily located in the Northeastern United States. IMS services a wide range of industries and assists customers with new product prototyping (with one, three, and five-day service available) and production assembly, inspection, and testing.

IMS has developed a customer base through its own sales team, targeting companies with new product development, prototyping, or variable-volume needs that value (and have demonstrated a willingness to pay a premium for) flexible manufacturing expertise, superior quality, strong design/ development capabilities, and rapid turnaround. IMS’ existing customers include some of the nation’s leading producers of medical, military/ aerospace, industrial, electronics, and robotics products. IMS has developed an operating expertise that positions it as a “problem solver” for its customers’ expanding product lines, and the ideal customer is often the one that other contract manufacturers turn away due to the size, complexity, and/ or short timeline of their projects. IMS’ quick-turn capabilities have been refined over years of operation and, combined with its strong product quality, represents a competitive advantage over other aspiring providers.

IMS Website: <http://www.imscorp-us.com/>
